

	Master-study program Applied Biotechnology and Food Sciences		Elective courses Offering WS 26/27			
<u>Excerpt from the examination and study regulations dated 16th July 2025 (translated):</u> § 6: Elective Courses: The binding elective modules offered as well as their respective form of assessment will be updated each semester and published in a suitable manner. Students may take binding electives adding up to a total of CPs as they choose. To complete a binding elective, the assessment defined for it, must be completed successfully. Students must complete the total amount of CPs required from binding electives in the course of their studies.						
<u>Excerpt from the Examination procedure regulations dated 24th March 2017 (translated):</u> § 3: In addition to the compulsory and required elective modules, students can choose additional modules from the entire range of courses offered by Flensburg University of Applied Sciences.
